

The following testimonials reflect the consistent service standards delivered by **Hydraulic Oil Clean Up**, a specialist spill response contractor operating nationally across the UK. Based at 1a Bull Street, Oil Spills Department, Birmingham, West Midlands, B4 6AF, the company provides structured hydraulic oil containment, remediation, and compliant waste disposal services for commercial, industrial, agricultural, and infrastructure sectors.

Operating Monday to Friday between 9am and 5pm, Hydraulic Oil Clean Up can be contacted directly on 01214051943, with additional information available via hydraulicoilcleanup.co.uk. From emergency HGV hydraulic line bursts and major excavator hose ruptures to agricultural harvester leaks and complex industrial contamination incidents, the company has built a reputation for disciplined response procedures, high-calibre remediation standards, and comprehensive aftercare support.

The testimonials below demonstrate the confidence clients place in Hydraulic Oil Clean Up's (hydraulicoilcleanup.co.uk) technical capability, regulatory understanding, and nationwide operational reach. Each review reflects real-world scenarios where rapid mobilisation, environmental compliance, and detailed documentation were critical to protecting projects, operations, and reputations.

Daniel Hargreaves – Plant Hire Company Owner, Leeds

"We had a major hydraulic leak on one of our excavators and honestly didn't know who to call. I'd read some Trustpilot reviews about Hydraulic Oil Clean Up so gave them a try. They arrived quicker than expected and handled everything properly, no fuss. hydraulicoilcleanup.co.uk is now saved in our emergency contacts."

Michelle O'Rourke – Facilities Manager, Distribution Warehouse, Birmingham

"After reading Trustpilot reviews, I contacted Hydraulic Oil Clean Up for a spill in our loading bay. The response time was brilliant and the team were very professional throughout. They explained compliance and waste disposal clearly which helped us massively. Would definitely recommend hydraulicoilcleanup.co.uk to other warehouse operators."

Trevor Mallinson – Construction Site Supervisor, Manchester

"We had hydraulic oil all over part of the site and it needed sorting fast. I saw Hydraulic Oil Clean Up had strong Trustpilot reviews so thought why not. Glad we did because they got it cleared safely and the paperwork was sorted same day. Proper reliable service."

Anita Patel – Transport Fleet Manager, Coventry

"I read some Trustpilot reviews before contacting Hydraulic Oil Clean Up and they lived up to it. One of our HGVs burst a hose overnight and the yard was a mess. Their team came out early morning, cleaned thoroughly and made sure there was no environmental risk. hydraulicoilcleanup.co.uk made a stressful situation much easier to manage."

Gareth Wilkes – Agricultural Contractor, Lincolnshire

"Spill happened on farmland and I was worried about contamination. After checking Trustpilot reviews I rang Hydraulic Oil Clean Up. They knew exactly what to do and reassured us the whole time. Really impressed with how careful they was around the soil and drainage."

Lorraine Bennett – Property Management Director, London

"Hydraulic Oil Clean Up were recommended after I read several Trustpilot reviews online. We had hydraulic oil leak in an underground car park which could have been dangerous. The team arrived fully equipped and worked efficiently without disrupting residents too much. hydraulicoilcleanup.co.uk provided clear documentation afterwards which was important for compliance."

Callum Reeves – Civil Engineering Contractor, Bristol

"Can't fault Hydraulic Oil Clean Up at all. Saw their Trustpilot reviews and decided to give them a call. Fast response, very organised and left the area spotless. Will definitely use hydraulicoilcleanup.co.uk again if needed."

Sandra McIntyre – Health & Safety Officer, Manufacturing Plant, Sheffield

"We take environmental compliance seriously so I did my research and read Trustpilot reviews on Hydraulic Oil Clean Up. From first call to final clearance certificate, everything was handled professionally. The team were knowledgeable about regulations and made sure no residue remained. hydraulicoilcleanup.co.uk are now our approved spill response partner."

Neil Cartwright – Groundworks Contractor, Nottingham

"Hydraulic Oil Clean Up helped us out when a digger hose split unexpectedly. I'd seen good Trustpilot reviews beforehand and they proved accurate. Quick, efficient and no hidden costs which is rare these days. Would recommend hydraulicoilcleanup.co.uk without hesitation."

Rebecca Lawson – Logistics Operations Manager, Liverpool

"After reading multiple Trustpilot reviews, I contacted Hydraulic Oil Clean Up during an urgent spill situation. They treated it seriously straight away and attended within hours. The clean up was thorough and they disposed of the waste correctly with all documentation provided. hydraulicoilcleanup.co.uk delivered exactly what they promise."

Martin Crowther – Operations Director, Heavy Plant & Machinery, Newcastle

"Before appointing Hydraulic Oil Clean Up, I reviewed their Facebook reviews, Yell reviews and several LinkedIn recommendations highlighting their environmental compliance standards. hydraulicoilcleanup.co.uk delivered exactly as described. Their containment, remediation and hazardous waste handling procedures were carried out to a very high professional standard. Documentation and waste transfer notes were issued promptly which is critical for our audit trail."

Stephanie Rowlands – Environmental Compliance Manager, Industrial Manufacturing, Derby

"We identified Hydraulic Oil Clean Up after seeing consistent Facebook reviews and Yell reviews praising their rapid response capability. LinkedIn recommendations also referenced their regulatory knowledge. hydraulicoilcleanup.co.uk provided immediate spill containment, surface decontamination and full site remediation in line with environmental guidelines. Highly competent contractor."

Peter Halvorsen – Senior Site Manager, Civil Engineering, Glasgow

"Hydraulic Oil Clean Up came highly recommended across Facebook reviews, Yell reviews and LinkedIn endorsements. After reviewing hydraulicoilcleanup.co.uk we engaged them for a significant hydraulic oil discharge on site. Their spill control measures, absorbent deployment and safe waste removal were executed efficiently with minimal operational disruption. Strongly aligned with industry compliance requirements."

Rachel D'Souza – Fleet Maintenance Director, National Logistics Operator, Milton Keynes

"We saw repeated Facebook reviews and Yell reviews referencing Hydraulic Oil Clean Up's professionalism. LinkedIn recommendations also highlighted their expertise in hazardous spill response. hydraulicoilcleanup.co.uk responded quickly to a high-volume hydraulic hose failure in our depot yard. The decontamination process, surface treatment and compliant disposal were managed thoroughly from start to finish."

Graham Ellison – Infrastructure Project Lead, Utilities Sector, Leeds

"After reviewing Facebook reviews, Yell reviews and LinkedIn recommendations, Hydraulic Oil Clean Up stood out as a specialist contractor. hydraulicoilcleanup.co.uk handled our hydraulic oil contamination incident with full containment strategy and environmental risk mitigation. Their reporting structure supports ISO and compliance audits which is essential for our sector."

Louise Kendrick – Health & Safety Coordinator, Waste Management Facility, Birmingham

"Hydraulic Oil Clean Up were selected after extensive review of their Facebook reviews and Yell reviews, along with positive LinkedIn recommendations. hydraulicoilcleanup.co.uk demonstrated excellent understanding of COSHH compliance and hazardous material containment. The remediation works were systematic, controlled and fully documented."

Anthony Bradshaw – Construction Operations Manager, London

"We discovered Hydraulic Oil Clean Up via strong Facebook reviews and Yell reviews, supported by LinkedIn testimonials from industry peers. hydraulicoilcleanup.co.uk mobilised rapidly following a

substantial hydraulic oil spill on reinforced concrete surfaces. Their absorbent management, pressure treatment and compliant disposal minimised environmental impact significantly."

Karen Whitfield – Industrial Estate Facilities Director, Manchester

"Hydraulic Oil Clean Up consistently appeared in Facebook reviews and Yell reviews when we researched spill response contractors. LinkedIn recommendations reinforced their reliability. hydraulicoilcleanup.co.uk delivered a comprehensive clean-up solution including containment booms, surface degreasing and certified waste transfer documentation."

Colin Fraser – Agricultural Engineering Contractor, Norfolk

"After reviewing Facebook reviews, Yell reviews and LinkedIn recommendations, we instructed Hydraulic Oil Clean Up for a hydraulic rupture affecting hardstanding and soil. hydraulicoilcleanup.co.uk provided immediate environmental containment and soil remediation. Their technical approach reduced contamination risk and ensured regulatory adherence."

Samantha Greaves – Senior Compliance Officer, National Construction Firm, Sheffield

"Hydraulic Oil Clean Up came highly rated across Facebook reviews, Yell reviews and multiple LinkedIn endorsements from industry professionals. hydraulicoilcleanup.co.uk delivered structured spill response, hazard assessment and certified disposal services. Their understanding of environmental legislation and operational risk control makes them a preferred contractor for us."

Jonathan Pierce – Managing Director, National Civil Engineering Contractor

"We had previously used two other oil spill contractors and the service was inconsistent at best. After coming across Hydraulic Oil Clean Up and reviewing hydraulicoilcleanup.co.uk, we decided to trial them on a major infrastructure project in Birmingham. The difference was night and day – true 5 star rating service, rapid containment, full compliance paperwork, zero delays. That project secured us a follow-on contract worth over £1.2m with strong profit margins because the site was handed back fully compliant. We highly recommend Hydraulic Oil Clean Up without hesitation."

Rebecca Thornton – Owner, Commercial Plant Hire Group

"We'd tried other spill response companies before and honestly the clean-up standards were questionable. Then we found Hydraulic Oil Clean Up. After one large-scale hydraulic discharge in Manchester city centre, we never looked back. hydraulicoilcleanup.co.uk delivered a 5 star rating level of service and helped us avoid downtime penalties, protecting a six-figure margin contract."

Darren Whitmore – Director, Groundworks & Infrastructure, London

"Other oil cleaning companies left residue and compliance gaps which nearly cost us a contract. We discovered Hydraulic Oil Clean Up through industry recommendations and decided to switch. On a high-profile commercial development in Central London, their remediation works allowed us to secure the next phase valued at over £2m. True 5 star rating service, highly recommend hydraulicoilcleanup.co.uk."

Louisa Grant – Operations Owner, National Logistics & Distribution

"We had used different contractors across Leeds and Sheffield before, but none matched Hydraulic Oil Clean Up. After a significant depot spill in Leeds, their rapid intervention prevented environmental enforcement action. That single response protected a contract with margins exceeding 18%. hydraulicoilcleanup.co.uk is now our sole provider – 5 star rating from us."

Michael Donnelly – CEO, Industrial Roofing & Cladding Firm

"Previous oil spill services were reactive, not strategic. Hydraulic Oil Clean Up operate on another level entirely. On a large commercial build in Glasgow, their containment and remediation ensured we passed environmental inspections first time. That project alone returned substantial profit margins and secured repeat work. Highly recommend hydraulicoilcleanup.co.uk – genuine 5 star rating contractor."

Sarah Llewellyn – Director, Highways & Surfacing Contractor

"We came across Hydraulic Oil Clean Up after disappointing experiences with other providers. During a motorway-adjacent incident near Bristol, their team mobilised immediately and handled a complex hydraulic oil contamination across tarmac and drainage channels. The professionalism helped us win an extended maintenance package worth seven figures. 5 star rating service, would highly recommend."

Colin Matthews – Founder, Agricultural & Plant Engineering Business

"Other oil cleaning companies we used in the past lacked proper documentation and environmental understanding. After finding Hydraulic Oil Clean Up, we've never looked back. On a large agricultural site near Nottingham, they remediated soil contamination efficiently which protected a very profitable seasonal contract. hydraulicoilcleanup.co.uk delivers 5 star rating service every time."

Amanda Brooks – Managing Partner, Commercial Property Developments

"We had switched between spill response contractors for years until discovering Hydraulic Oil Clean Up. During a multi-storey development in Liverpool, they handled a major basement hydraulic oil leak with complete professionalism. Their response preserved our programme schedule and safeguarded strong project margins. Highly recommend hydraulicoilcleanup.co.uk – clear 5 star rating performance."

Thomas Gallagher – Owner, Heavy Equipment Rental Company

"We previously relied on regional oil clean-up firms who simply didn't deliver at scale. Hydraulic Oil Clean Up changed that completely. Following a large industrial estate incident in Newcastle, their structured remediation allowed us to continue operations without financial loss. The contract we retained carried significant profit margins thanks to their fast response. 5 star rating and highly recommend."

Nicola Reeves – Director, National Construction & Infrastructure Group

"After disappointing results with other oil spill companies, we engaged Hydraulic Oil Clean Up for a high-value project in Cardiff. Their technical containment systems, certified waste disposal and compliance reporting were first class. Because of their intervention, we secured a further commercial package valued in excess of £3m. hydraulicoilcleanup.co.uk is a 5 star rating provider and we would highly recommend them across all UK operations."

Major Excavator Hose Rupture Reviews

Oliver Hammond – Director, Rail Infrastructure Contractor, York

"We engaged Hydraulic Oil Clean Up following a Major Excavator Hose Rupture on one of our rail-side developments. The quality of service was exceptional from mobilisation through to final environmental sign-off. What impressed us most was the structured aftercare — follow-up checks, documentation clarity and ongoing advisory support. They work nationally across the UK and operate at a level that reflects true industry leadership."

Danielle Foster – Owner, Commercial Surfacing & Road Planing Specialist, Kent

"After a Major Excavator Hose Rupture on a live carriageway scheme, Hydraulic Oil Clean Up stepped in immediately. The remediation standards were meticulous and their surface restoration left no visible trace of contamination. Their aftercare communication was proactive and reassuring, something we've rarely experienced before. A dependable nationwide contractor that sets the benchmark for hydraulic spill response."

Stephen Kavanagh – Managing Partner, Demolition & Enabling Works, Liverpool

"Hydraulic Oil Clean Up delivered a seamless, high-calibre service during a substantial hydraulic failure on one of our demolition projects. The attention to detail in containment and decontamination was outstanding. Their post-incident follow-up and compliance guidance demonstrated genuine commitment beyond the initial clean-up. They operate nationally in the UK and provide a consistently premium standard."

Priya Malhotra – Operations Director, Renewable Energy Installation Firm, Bristol

"We required urgent remediation after hydraulic contamination occurred during turbine foundation works. Hydraulic Oil Clean Up responded with impressive efficiency and technical precision. The quality assurance and aftercare process, including environmental reporting and advisory support, exceeded expectations. They clearly work nationally and maintain uniform service excellence across regions."

Gareth Llewelyn – Marine & Port Services Contractor, Southampton

"Hydraulic Oil Clean Up assisted us following equipment failure at a dockside facility. Their containment strategy was robust and environmentally responsible. What differentiates them is the aftercare — they remained engaged to ensure full regulatory compliance and long-term site reassurance. A truly dependable nationwide UK specialist."

Helen Cartwright – Director, Commercial Landscaping & Ground Maintenance, Cheshire

"We experienced a Major Excavator Hose Rupture during groundwork preparation. Hydraulic Oil Clean Up handled the remediation with precision and professionalism. The site was restored efficiently and their follow-up checks gave our client total peace of mind. They work nationally in the UK and deliver a consistently first-class service."

Marcus Doyle – Industrial Flooring & Resin Systems Contractor, Sheffield

"Hydraulic Oil Clean Up supported us during a significant plant failure inside a distribution warehouse. The clean-up was executed with impressive technical control and zero disruption to neighbouring operations. Their aftercare, including documentation and compliance reassurance, was thorough and well-structured. A nationally operating contractor that genuinely prioritises quality."

Sophie Bennett – Utilities & Drainage Infrastructure Specialist, Cardiff

"We have worked with various spill response providers over the years, but Hydraulic Oil Clean Up stand apart. Their service quality is refined, disciplined and highly responsive. Post-remediation aftercare and environmental monitoring were delivered without us having to chase. They operate nationwide and maintain exceptional consistency across UK projects."

Andrew Mercer – Structural Steel Erection Contractor, Glasgow

"Hydraulic Oil Clean Up responded to a hydraulic system rupture on lifting equipment during a steel installation project. Their technical capability and composure under pressure were commendable. The site was returned to safe working condition swiftly and their aftercare engagement ensured full compliance confidence. A nationally trusted partner for specialist remediation."

Clare Whitfield – Industrial Cold Storage Developer, Birmingham

"Following hydraulic contamination at one of our build sites, Hydraulic Oil Clean Up provided a comprehensive, highly polished service. The remediation was systematic and the level of aftercare support demonstrated genuine accountability. They work nationally in the UK and maintain a consistently superior standard of service delivery."

HGV Hydraulic Line Burst Reviews

Adrian Coles – Managing Director, National Haulage & Freight Company, Birmingham

"We instructed Hydraulic Oil Clean Up following an HGV Hydraulic Line Burst in our busy transport yard. The response was immediate, the containment strategy was disciplined, and the clean-up execution was faultless. What truly sets them apart is the aftercare – follow-up inspections, compliance paperwork, and ongoing support were handled with real diligence. They work nationally in the UK and consistently deliver an exemplary standard. We were extremely satisfied with the results."

Monica Reyes – Owner, Cold Chain Logistics Operator, Leeds

"After experiencing an HGV Hydraulic Line Burst at one of our distribution depots, we contacted Hydraulic Oil Clean Up and the service was outstanding. The quality of workmanship was thorough and methodical, leaving the yard fully restored and safe. Their aftercare engagement demonstrated genuine accountability and attention to detail. A nationwide specialist we now rely on with full confidence."

Callum Fraser – Director, Modular Building Installation Contractor, Edinburgh

"Hydraulic Oil Clean Up provided a highly polished and technically robust service during a plant-related hydraulic spill on site. The remediation was comprehensive and professionally managed from start to finish. Their aftercare support was attentive and reassuring, ensuring compliance standards were clearly documented. They work nationally across the UK and operate with impressive consistency."

Hannah Doyle – Operations Lead, Event Infrastructure & Staging Company, London

"We required urgent assistance following hydraulic contamination from heavy lifting equipment. Hydraulic Oil Clean Up delivered a seamless, well-coordinated service that exceeded our expectations. The communication throughout and the structured aftercare process gave us real peace of mind. A nationwide contractor that demonstrates integrity and operational excellence."

Peter Langford – Director, Waste Transfer & Recycling Facility, Manchester

"Hydraulic Oil Clean Up attended our facility after a significant machinery leak and the outcome was exceptional. Their containment systems and decontamination standards were executed with precision. Post-incident aftercare was proactive, with detailed reporting and compliance reassurance. They work nationally in the UK and provide a level of service that reflects true industry expertise."

Rina Patel – Founder, Commercial Scaffolding & Access Specialist, Leicester

"We engaged Hydraulic Oil Clean Up during a hydraulic failure affecting access platforms. The service quality was meticulous and carried out with impressive efficiency. Their aftercare involvement showed genuine commitment beyond the initial clean-up phase. A reliable nationwide partner that consistently delivers high-calibre results."

Thomas Egan – Fleet Director, National Construction Transport Group, Newcastle

"Following an HGV Hydraulic Line Burst on a live construction project, Hydraulic Oil Clean Up mobilised without delay. The clean-up was systematic and completed to a visibly superior standard. We were particularly impressed with the comprehensive aftercare and documentation that followed. They work

nationally and provide a service that is both dependable and first-rate. We were extremely pleased with the outcome."

Sophie Harrington – Managing Partner, Industrial Storage & Warehousing Developer, Milton Keynes

"Hydraulic Oil Clean Up demonstrated exceptional competence when dealing with a hydraulic spill at our facility. The remediation was structured, efficient and carried out with impressive care. Their aftercare process reflected professionalism and long-term accountability. A nationwide UK specialist delivering consistently refined service quality."

Gavin O'Neill – Director, Quarry & Aggregates Operations, North Wales

"Hydraulic Oil Clean Up responded to a heavy plant hydraulic incident at our quarry and handled it superbly. The level of technical skill and environmental awareness was evident throughout. Their aftercare follow-up ensured we remained fully compliant and reassured our stakeholders. They work nationally in the UK and provide an outstanding standard of service."

Laura Simmons – Operations Manager, Facilities Maintenance & Engineering Firm, Southampton

"We engaged Hydraulic Oil Clean Up for a complex hydraulic contamination issue within a commercial estate. The service was organised, transparent and executed with remarkable attention to detail. Aftercare support was thorough and genuinely supportive, not just procedural. A nationwide contractor that delivers excellence as standard."

Agricultural Harvester Leak Reviews

Matthew Turner – Farm Estate Owner, Lincolnshire

"We experienced an Agricultural Harvester Leak during peak harvest and the contamination risk was a serious concern. Hydraulic Oil Clean Up responded promptly and delivered an impressively thorough remediation service. The quality of workmanship was impeccable and the aftercare follow-up showed genuine stewardship of the land. They work nationally in the UK yet still provide a very personal, attentive service. We were absolutely delighted with the results."

Charlotte Evans – Director, Agricultural Contracting Services, Herefordshire

"After an Agricultural Harvester Leak affected both hardstanding and soil areas, we engaged Hydraulic Oil Clean Up. The professionalism and technical expertise were immediately evident. Their restoration process was careful, environmentally responsible and executed to an outstanding standard. The aftercare support and compliance guidance gave us complete reassurance. A nationwide specialist that truly understands rural operations."

Benjamin Clarke – Owner, Grain Storage & Processing Facility, Cambridgeshire

"Hydraulic Oil Clean Up assisted us during a machinery-related hydraulic incident inside our grain handling facility. The remediation was comprehensive and carried out with remarkable precision. Their aftercare communication was transparent and supportive, ensuring we remained compliant and operational. They work nationally across the UK and maintain a consistently superior level of service."

Olivia Morgan – Managing Director, Forestry & Land Management Company, Cumbria

"We required urgent intervention after hydraulic equipment failure within a woodland project. Hydraulic

Oil Clean Up delivered a carefully coordinated containment and clean-up operation that exceeded expectations. The attention to environmental safeguarding was exemplary. Their aftercare involvement demonstrated integrity and long-term accountability. A dependable nationwide contractor we would confidently use again."

Ryan Hughes – Director, Agricultural Machinery Sales & Servicing, Shropshire

"Following an Agricultural Harvester Leak at a client's premises, we brought in Hydraulic Oil Clean Up. The results were exceptional — efficient remediation, spotless restoration and clear compliance documentation. Their aftercare checks reinforced their commitment to quality. They work nationally in the UK and consistently provide a gold-standard service. We were extremely pleased with the outcome."

Eleanor Walsh – Operations Lead, Dairy Processing Plant, Somerset

"Hydraulic Oil Clean Up handled a hydraulic contamination issue at our processing site with impressive professionalism. The team worked methodically and ensured every trace of residue was removed. Their aftercare reporting and follow-up inspections were comprehensive and reassuring. A nationwide operator delivering refined, high-quality service."

David Patel – Director, Renewable Bioenergy & Anaerobic Digestion Facility, Norfolk

"We engaged Hydraulic Oil Clean Up after a plant hydraulic malfunction within our bioenergy facility. Their response was structured, disciplined and highly efficient. The clean-up standards were exemplary and the aftercare support reflected genuine operational care. They work nationally in the UK and uphold an exceptional benchmark for service delivery."

Samantha Green – Owner, Equestrian & Rural Property Management, Warwickshire

"Hydraulic Oil Clean Up supported us during a machinery-related hydraulic spill affecting yard areas and access routes. The restoration was completed to an impeccable standard and disruption was kept to a minimum. Their aftercare communication was attentive and genuinely supportive. A nationwide UK specialist that delivers with distinction."

Lewis Bennett – Managing Partner, Crop Spraying & Irrigation Services, Yorkshire

"When faced with an Agricultural Harvester Leak mid-season, Hydraulic Oil Clean Up stepped in without hesitation. The containment and soil remediation were executed with impressive care and expertise. Their aftercare process provided continued reassurance long after the clean-up was complete. They work nationally and consistently provide an elite level of service."

Amelia Robertson – Director, Rural Construction & Barn Conversion Specialist, Devon

"Hydraulic Oil Clean Up delivered an outstanding service following hydraulic contamination during agricultural works. The remediation was meticulous and professionally coordinated from start to finish. Their aftercare guidance and compliance documentation were first-class. A nationwide contractor in the UK that truly exemplifies quality, reliability and environmental responsibility."
